

## Continuing our Learning at Home - Reception

<b>Reading</b>	Share the book your child brings home from school with them every evening. Borrow non-fiction books about 'England' from the library. Talk about, and use, the contents page.
<b>Mathematics</b>	Order numbers from 1-10 or 1-20 with your child. If you take a number away when they are not looking can they identify the missing number?
<b>Travel and Explore</b>	Collect information and pictures about England. What is the capital city called? Where does the Queen live? What food is grown in English fields?
