

Continuing our Learning at Home - Y21P - Year 2

Reading	Please remember to read every night. Share a non-fiction text and use the contents, index, headings, glossary and captions to answer specific questions about the book or to explore a particular topic within the text.
Mathematics	This week we have been thinking about independently reading and writing one and two-digit numbers to at least 100 in numerals and words. Can you write all the words for each number up to 100 accurately? If you can do this, try some three digit numbers. Please keep practising these over the next few weeks.
History	Next week we will be thinking about Remembrance and we will be learning about why it is important to remember different times in history. What can you find out about Remembrance Day? Why do we commemorate this day and what will be happening in Brentwood? How do you think people living at the time would have been feeling when they found out the war had ended?
