

## Continuing our Learning at Home - Reception

<b>Reading</b>	Share books with your child about friendship. Can they describe what has happened in the story? Talk to your child about why friendship is important.
<b>Mathematics</b>	Encourage your child to count at least 5 objects accurately (or 10 objects and beyond if secure) by touching them as they count. Can they count how many forks are on the table? Or how many toys are on the bed?
<b>Friendship Week</b>	Ask your child to draw a picture of their friends. Can they describe what makes their friends special?
