

Continuing our Learning at Home - Y1NT and Y1G

Reading	Remember to read with your child every evening. Try reading a non-fiction book. Talk about the contents, index and glossary. Can you explain what each one is used for? Discuss the difference between non-fiction and fiction books.
Mathematics	Can you use positional language to direct a friend or family member around your home or garden? Remember to include the terms forwards, backwards, between, under, around etc.
Friendship Week	We have enjoyed Friendship Week in school this week. Think about what makes a good friend. Write a few different words to show what a friend should be like. You could decorate your list and put it somewhere to remind you how to behave with your friends.
