

Continuing our Learning at Home - Year 2

Reading	Next week we will be exploring poetry. Share a range of poems and rhymes. Select your favourite poem and learn it by heart so that you can share it with your family and friends. Pay attention to the rhythm and rhyme of the poem you are reciting.
Mathematics	Practise telling the time using o'clock, half past, quarter past and quarter to the hour on an analogue clock. Where will the hour and minute hands be at quarter past 5, half past 7, 12 o'clock and quarter to 10? If the hour hand is on the 8 and the minute hand is on the 12, what will the time be?
The Scented Garden	Visit a garden centre, florist or plant sale, or take a walk in your garden or local area. Can you name the different plants on show? Find out the names of plants you don't recognise using the internet or plant encyclopaedias.
