

## Continuing our Learning at Home - Y21P - Year 1

<b>Writing</b>	Thinking about our topic 'Splendid Skies', can you write a weather poem? You may want your poem to rhyme but it does not have to. Remember to use exciting and interesting words and phrases.
<b>Mathematics</b>	Walk around your house and try to identify as many 2D shapes that you can and describe the number of corners and sides. Can you do the same for 3D shapes? Remember to describe how many faces, edges and vertices (where the edges meet) there are.
<b>Splendid Skies</b>	Can you show an adult how to make a shadow with a torch? Search the internet safely to find out about the length of the day over the year. How does this affect our activities and the clothes we need to wear?
