

Continuing our Learning at Home - Reception

Reading	Share the book your child brings home from school with them every evening. Explore atlases with your child and locate interesting countries. Talk about why some countries are hot and why some are cold. Can they locate deserts, mountains, rivers and oceans?
Mathematics	Use 2D shapes to make a repeating pattern.
Our Lives	Explore maps of Brentwood and the UK together. Can your child identify where they live? Can you help them to find places they have visited on holiday or where family members live?
