

## Continuing our Learning at Home - Y1NT and Y1G

<b>Reading</b>	Remember to read with your child every evening. We have begun to read <i>The Magic Faraway Tree</i> by Enid Blyton. Talk about the characters - what are their names? What are they like? Draw an illustration of how you imagine them.
<b>Mathematics</b>	Practise addition. Write out a number sentence and use objects or your fingers to help you count on. Try a challenge and choose some bigger numbers! For example: $4 + 2 =$ $7 + 3 =$ $9 + 5 =$ $6 + 5 =$ $14 + 5 =$ $11 + 4 =$
<b>Topic: Enchanted Woodland</b>	Go on a tree hunt with someone at home. Explain to them what you've learnt about evergreen and deciduous trees. Can you remember what these words mean? Remember to collect any interesting natural objects you find on the ground.
