

Continuing our Learning at Home - Year 1 - Y1P

Writing	This week we have been using the conjunctions and to join sentences together. Can you use these conjunctions within your sentences when you retell the story from one of your favourite books or your school reading book? Underline each conjunction you use.
Mathematics	Can you add two numbers together in your head, by putting the largest number first and then counting on? Have a go at adding these numbers together: $4 + 2 =$ $7 + 3 =$ $9 + 5 =$ $6 + 5 =$ Can you practise adding a one digit number to any teen number? For example $15 + 4 =$ Use a number line to help you do this - start at 15 and then jump on 4. Can you find the answer to these number sentences: $12 + 5 =$ and $13 + 6 =$
Religious Education	We have been learning about the Jewish festival of Sukkot and we made a year group Sukkah in the playground. Can you tell your family what Jewish people do at this celebration, and why they build sukkahs? Which story from the Bible do they think about? Could you draw a picture of a sukkah, or make a model one at home? Remember to bring your picture or a photo of your model in to show the class.
