

Continuing our Learning at Home - Y1NT and Y1G

Writing	Write about something you have done over the weekend. Remember to space each word carefully, and use capital letters and full stops in the right places.
Mathematics	Show someone at home how to take away. Write out the number sentence and use your fingers to help work out the answer. Try these calculations: $10 - 3 =$ $9 - 5 =$ $7 - 2 =$ $6 - 5 =$ $8 - 6 =$ $9 - 4 =$
Topic: Enchanted Woodland	Search online for pictures and facts about amazing woodlands or forests around the world. Which ones would you like to visit? What is special about them? Try and remember some facts to share with your classmates next week.
